## Inspiring tale of "Robinson Crusoe"

The Brand name "CRUSO" is inspired by the world famous English novel "ROBINSON CRUSOE" by Daniel Defoe. ROBINSON CRUSOE is the tale of one man's survival on a un-inhabited island following a shipwreck- although Crusoe later discovers the island isn't as un-inhabited as the first thought.

"The Life and Strange Surprising Adventures of Robinson Crusoe, Of York, Mariner: Who lived Eight and Twenty Years, all alone in an un-inhabited Island on the Coast of America, near the Mouth of the Great River of Oroonoke; Having been cast on Shore by Shipwreck, wherein all the Men perished but himself. With An Account how he was at last as strangely delivered by Pyrates." The novel teaches us that if you have the will you can fight the most belligerent environment around and come out a winner.

## Our company

Our identity can best be described in three words: Enthusiasm, Skills and Flexibility. The enthusiasm that guides our work and brings it to life, acting as a driver for growth, excellence and the pursuit of new solutions. Skills are our ability to improve and to reach higher standards every day, thanks to decades of know-how, investments and practical engagement. Lastly, flexibility is the route towards achieving the synergy between the company and its customers that is the most important of our aspirations

## Spaces, skills & interaction

Cruso's cutting-edge production system combined with the high level of expertise and professionalism of the business units and comprehensive range of products allows it to effectively meet all design and commercial requirements. The company's solid structure is able to meet the demands of an ever-evolving market, by offering an effective, accurate and high-quality services.

We know the world and we experience it every day. Every day, with a network that stretches over many countries, we come into contact with different markets and socio - cultural contexts, in which we offer our know-how, even more than our products. This policy has proved positive, as demonstrated by the projects undertaken and the international certifications obtained. This is the proof of the "Made in India" model we export: the ability to innovate and to reinvent the spirit rooted in our traditions, together with the constantly improving quality of our products.

## Shape your idea

We offer integrated solutions for flooring and wall cladding, technical applications, ventilated facades, raised floors, tactile floors and outdoor surfaces. A complete and wide-ranging offer, supported by more than 30 collections that can be mixed and matched with a wide range of sizes, colours and surfaces to design any type of commercial and residential space. Cruso surfaces slabs are a compact and resistant material with high technical and aesthetic performances.

The slabs are obtained through a vitrification process, i.e. the complete fusion of sand, quartz, feldspar, kaolin, clay and natural colouring oxides to form a single material: these raw materials are fired at temperatures above 1200°C to create a compact and solid product with exceptional hardness and unparalleled mechanical properties. Cruso slabs meet the criteria of innovative architecture, able to perfectly combine striking aesthetics with high technological performance.
